TNG (PAYLATER RAIL) - NADI (COMMUNITY FACILITATOR - 84 IN SELANGOR)
MYKASIH (MYSARA ITEM CATALOGUE + MERCHANT NETWORK) - B40 HOUSEHOLDS (THE POOL)
FOUR REAL MALAYSIAN INSTITUTIONS. ONE PRODUCT. ZERO NEW WELFARE PROGRAMMES INVENTED.

The Solution!

FELDA GEDANGSA

The Test Bed

Why NADI Felda Gedangsa?

Felda Settlement

- primarily oil-palm + rubber smallholders

Communal management tradition

- Felda model is collective by design

MCMC-run NADI centre

- already serves the kampung with digital training, light banking, courier service

B40 concentrated

- Felda smallholders predominantly in B40 income bracket

1.5h drive from FINHACK venue

- site visit feasibility for Day 2 follow-up

SELANGOR

Real institutions. Real settlement. Real B40 household pool dynamics — not synthetic.

Deliberately Minimal

PostgreSQL

The Stack

Hono + Drizzle + Better Auth + Next.js 15 + shadcn/ui. One EC2.

The Lineage

Pool credit has
scaled before.
We bring it home.

Reference	Region	Raised	Mechanic
MoneyFellows	Egypt	USD 31M	Communal financial digitization
Esusu	USA	~USD 1B	Trust-score for invisible population
Stokfella	South Africa	Regional Leader	Stokvel digital ledger
Easypaisa Pool Buy	Pakistan	Mobile wallet group purchase	Direct pool paylater precedent

Malaysia has TNG · NADI · MyKasih. We have the rails. We have the institutions.
DuitLater is the wiring.

The Ask

What
We
Need

TNG

**PayLater sandbox API
access for the pool
transaction flow**

MCMC

**Formal collaboration
framework with NADI
Selangor (84 centres
ready as distribution
channel)**

**MyKasih
Foundation**

**Merchant network
access + MySARA cat-
alogue API for
last-mile fulfilment**
